

### e-obs

Firetail supports e-obs high quality GPS tags which track and record movement patterns of animals.

### GPS

Firetail allows users to view GPS points directly after download from tag in the field, with a capacity of >500,000 GPS points.

### Acceleration

Firetail displays more than 10M acceleration samples - time synchronized with GPS points.

### Visualization

Firetail offers different visualizations and various options for processing tracking data, with data selectable by area, time period, or other parameters.

## YOUR ADVANTAGES

Offline Maps

>500k GPS Points

>10M Acceleration Samples

Import  
(e-obs logger.bin,  
Movebank CSV)

Export  
(Shape/Excel File)

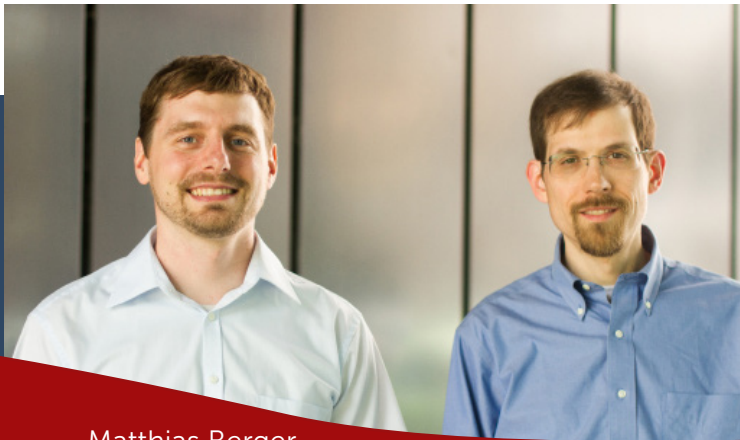

Diverse Visualizations

Various Selections
